

the Magic Yarn project

Chemotherapy treatments often leave young scalps too sensitive for traditional wigs. Our yarn wigs are soft, giggle-inducing, and inspired by beloved Disney characters!

Magic Yarn volunteers crochet cozy yarn into beanies and then transform them with love into long, flowing princess and pirate hair.

If you know a brave little warrior who would love to have hair just like their idol, please visit our website to request a free wig and see current wig choices.

100% Volunteer-made

100% Free to patients

Shipped to cancer fighters worldwide
