

the Magic Yarn project

Homespun Wigs For Little Cancer Fighters

Very often, chemotherapy treatments leave little scalps too sensitive for traditional wigs. Our wigs provide a warm and soft, magical escape, for the bravest princesses around.

And as our volunteers create each wig, they hope to encourage strong Princess qualities such as; willpower, determination, and fight.

100% Volunteers * 100% Donations

How it works

- Step 1. Volunteers donate their crochet talents to create soft beanies for the project.
- Step 2. Organized workshops and online tutorials, teach volunteers how to attach yarn and accesories to the beanies to make beautiful, flowing yarn wigs.
- Step 3. Giggle-inducing wigs are delivered to princess-loving girls and cancer treatment centers worldwide.
