

General Supplies

Silk/fabric flowers in pink hydrangea, orange hydrangea, or seasonal plumeria. All completed Moana flowers should be about 2 inches in size. Note: No paper flowers.

- ☐ Depending on the option you are creating, you will also need small white or pale pink flowers.
- ☐ We recommend using clear flatback gems for all flowers, however, you may also bedazzle in a gem color that matches the petal color. No gems larger than 8 mm.
- ☐ Mini Glue Gun and Glue Sticks

Assembly Instructions

- ☐ Take flowers and leaves off stems and remove all plastic backings and centers so the flowers can lay as flat as possible when glued on the wigs.
- ☐ If the leaves are between 2 to 3 inches each and match Moana's tropical theme, separate and send in sets of 15. No ivy or eucalyptus leaves. No leaves should be glued to the flowers. If they are larger, please discard and do not send in.

- ☐ For options 1 and 2, layer the flowers to create a beautiful flower modeling after the samples to the right. These will only have 2 layers. Option 3 will not have any layers.
- ☐ Glue flower layers together with hot glue.
- ☐ Bedazzle the centers with clear flatback gems. If using a colored gem, the color must match the petal color and every flower in the set must have the same type/color of gem.

Package in sets of 15

- ☐ Each set of flowers sent in must be the same type (option) of flower with the same type and color gems in the center.
- ☐ Stack flat and place in a Ziploc or sandwich bag.

Option 1: Pink Hydrangea with a layer of a small white or pale pink flower

Option 2: Orange Hydrangea with a layer of a small white flower

Option 3: Seasonal Plumeria
